

## Change of user account email address

This form is used only if there is no other way to change user account email address, that is if owner cannot access their user account and the current email address is no longer in function, so password reset is not possible.

### User account information

This information must be identical to the current information in the user account

|                                   |                           |
|-----------------------------------|---------------------------|
| Representative / Name and surname | Company ID or Personal ID |
| Company/Organization name         | Company VAT number        |

### New main email address and contact person of the user account

|                                   |               |
|-----------------------------------|---------------|
| Representative / Name and surname | Email address |
|-----------------------------------|---------------|

**Note:** User account password will be changed and sent to the new email address.

### Additional contacts (optional)

| Name and surname | Email address | Notifications                  |
|------------------|---------------|--------------------------------|
|                  |               | invoices    hosting    domains |
|                  |               | invoices    hosting    domains |
|                  |               | invoices    hosting    domains |
|                  |               | invoices    hosting    domains |

**Note:** All current additional contacts in the account, not specified above, will be removed.

### Consent of the account owner

|      |                     |
|------|---------------------|
| Date | Signature and stamp |
|------|---------------------|
